

CALL FOR PAPERS

ICPEIE 2015
Apr 13-14, 2015
Venice, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPEIE 2015 : International Conference on Power Electronics and Instrumentation Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Power Electronics and Instrumentation Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Active Filtering and Unity Power
Factor Correction Circuits
Active power quality controllers
Aerospace applications
Analysis, design, control, and
applications of electrical machines
and drives
Application and Design of Power
Electronic Systems
Application of power electronics in
power system and generation
Automotive vehicles
Bearingless drive technologies
Bio-medical power electronics
Construction and protection
Consumer power electronics
Control of Power Converters
Custom power devices

Distributed generation
Distribution networks
Electrical Machines and Actuators
Electromagnetic Compatibility
Electro-Mechanical Energy
Conversion
EMC improvement with new materials
and elements, systems
EMC standardization
Energy saving and compatibility of
electrical drives and generators
Energy storages
Filters and compensators
Fuel cell
General power quality problems and
measurements
Grid interfaces
