

CALL FOR PAPERS

ICCS 2016
Jul 21-22, 2016
Zurich, Switzerland

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCS 2016 : International Conference on Cyber Security is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cyber Security. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Access Control	Intrusion Detection and Recovery
Application Security	Language-based Security
Attacks and Defenses	Malware
Auditing and Accountability	Mobile Devices and Security
Authentication	Network Security
Banking/Finance and Security	Operating Systems Security
Biometric Security	Privacy and Anonymity
Cyber-physical Systems Security	Provable Security
Digital Forensics	Secure Information Flow
Distributed Systems Security	Security Modeling and Analysis
Embedded Systems Security	Security Testing
Hardware Security	Usability and Security
Information Systems Security	Web Security
