

CALL FOR PAPERS

ICFNA 2019
Jul 18-19, 2019
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFNA 2019 : International Conference on Future of Nootropic Agents is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Future of Nootropic Agents. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nootropics

Cognitive enhancers

Chemistry and pharmacology of
nootropics

Mechanism of action of the
nootropics

Metabolically active compounds

Availability and prevalence

Piracetam-type nootropics

Efficacy and tolerability of
nootropics

Recent development in nootropics

The effects of nootropics on
memory

Pharmacological properties and
therapeutic use

Use by students

Side effects

Long-term effects

Short-term effects

Cholinergic effects of nootropics

Drugs

Stimulants

Miscellaneous

Dietary supplements

Racetams

Null findings in systematic
reviews

Standards in nootropics

Drugs interacting with receptors

Cognitive enhancement, methods,
ethics, regulatory challenges

Piracetam and other structurally
related nootropics
