

# CALL FOR PAPERS

**ICRMTS 2019**  
**Oct 17-18, 2019**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRMTS 2019 : International Conference on Railway Mass Transportation Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Railway Mass Transportation Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Design of Light Rail Transit Systems  
Distinctions Between Systems and How Their Characteristics Influence and Govern the Engineering of Their Alignments and Track Structures  
Railway Engineering Principles and How They Apply to the Three Transit Systems  
Design, Construction, and Maintenance of Rail Transit Systems  
Electrification  
Crossings  
Rescheduling  
Layout and Design of Transit Yard Facilities  
Traction Power Systems  
Noise and Vibration Control for Rail Transit Passenger Systems

Monitoring and Maintenance  
Railroad Infrastructure Engineering  
Rail Equipment Engineering  
Signal and Train Control Engineering  
Service Quality and Operations Research  
Planning and Development  
Safety and Security  
Energy Efficiency and Sustainability  
Urban Passenger Rail Transport
