

CALL FOR PAPERS

ICCCTA 2019
Nov 04-05, 2019
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCCTA 2019 : International Conference on Computer Communication Technologies and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computer Communication Technologies and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computer communications
Emerging technologies for next generation network
LAN/WAN/MAN
Future internet architecture, protocols and services
Content- and service-centric architecture
Mobile and ubiquitous networks
Self-organizing/autonomic networking
Green networking
Internet content search
QoS and multimedia networking
Opportunistic networking

On-line social networks
Internet of things
Public safety communication networks
Network applications (web, multimedia streaming, VoIP, gaming, etc.)
Trust, security and privacy in computer and communication networks
Modeling, measurement and simulation
Complex network models
Internet socio-economic models
Experimental test-beds and research platforms
Algorithmic aspects of communication networks
Network scaling and limits
