

CALL FOR PAPERS

ICIECS 2019
Nov 04-05, 2019
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIECS 2019 : International Conference on Internet Engineering and Communication Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Internet Engineering and Communication Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Internet engineering	Sensor networking and applications
Internet security	Wireless, mobile and ad hoc networks
Internet technology	Delay and disruption tolerant networks
Internet economics and marketing	Location management and positioning
Internet networks and communication technologies	Peer-to-peer and overlay networks
Internet and information engineering	Multimedia systems and applications
Future internet architectures and technologies	Network operations and management
Networking technologies in developing regions	Quantum networking
Internet measurement, analysis and modeling	Social networks
Disaster networking, including experience with	Network security
