

CALL FOR PAPERS

ICPT 2019
Nov 07-08, 2019
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPT 2019 : International Conference on Probability Theory is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Probability Theory. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Probability theory
Probability and mathematical statistics
Functional equations in probability theory
Random variables and probability distributions
The law of large numbers
Limit theorems and estimates
Discrete probability distributions
Conditional probability

Continuous probability distributions
Measure-theoretic probability theory
Classical probability distributions
Convergence of random variables
Law of large numbers
Central limit theorem
Probability theory and stochastic processes with applications
