

CALL FOR PAPERS

ICHTOA 2019
Nov 07-08, 2019
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHTOA 2019 : International Conference on Health Technology for Older Adults is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Health Technology for Older Adults. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Aging, Technology and Health
Technology Development for Older Adults
Online Health Information for Older Adults
Patient Portal-Based Health Information
Technological interventions for aging and motor control
Social Engagement of Older Adults through Technology

Virtual Cognitive Training in Healthy Aging and Mild Cognitive Impairment
Social Agents for Aging-in-Place
Design of Human Centered Augmented Reality for Managing Chronic Health Conditions
IoT Technologies for Health Management
Patient Management Technologies
