

CALL FOR PAPERS

ICCBDA 2019
Nov 18-19, 2019
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCBDA 2019 : International Conference on Clinical Biochemistry of Domestic Animals is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Clinical Biochemistry of Domestic Animals. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Clinical biochemistry of domestic animals	Liver function
Normality in clinical biochemistry	Pancreatic function
DNA technology	Gastrointestinal function
Carbohydrate metabolism and diabetes	Skeletal muscle function
Lipids and ketones	Kidney function
Proteomics	Fluid, electrolyte and acid-base balance
Clinical immunology	Pituitary function
The erythrocyte	Adrenocortical function
The porhyrins	Thyroid function
Iron metabolism	Reproductive hormones
Hemostasis	Clinical nutrition
The leukocytes	Calcium, phosphorus and magnesium metabolism
Clinical enzymology	Trace minerals
