

CALL FOR PAPERS

ICPDA 2019
Nov 18-19, 2019
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPDA 2019 : International Conference on Pathology of Domestic Animals is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Pathology of Domestic Animals. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Pathology of domestic animals
Veterinary pathology for domestic animals
Advanced diagnostic techniques for domestic animals
Veterinary pathology for domestic, laboratory, wildlife, marine and zoo animals
Natural and experimental diseases in domestic animals
Diagnostic investigations of diseases of animals
Animal models of human disease
Environmental and pharmaceutical hazards
Veterinary clinical pathology
Veterinary parasitology
Veterinary parasite diseases
Comparative pathology
Veterinary anatomical pathology

Clinical pathology and chemotherapy
Prognostic value and clinical pathology
Neuropathology and tumors
Clinical pathology findings in clinical diseases
Non-clinical toxicology testing in clinical pathology
Clinical pathology implications in cancer patients
Clinical pathology and diagnostic testing
Advanced molecular testing
Skin histopathology
Drug development
Molecular disease mechanisms
Integrated disease management strategies
Molecular diagnostics and therapeutics
