

CALL FOR PAPERS

ICUPRD 2019
Nov 11-12, 2019
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICUPRD 2019 : International Conference on Urban Planning and Regional Development is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Urban Planning and Regional Development. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Examples and visions of “liveable cities for everyone”
Keeping balance: managing complex urban infrastructures
Housing and real estate perspectives, high tech & low cost housing
Perspectives for future transport and mobility
Urban and environmental technologies to improve quality of life
Ambient Assisted Living (AAL) in the urban context
Healthy cities, health in cities
Safety and security vs. lack of privacy and total surveillance
Data, information and knowledge infrastructures for planning, management and decision support
Understanding cities: tools and technologies to support decision makers, citizens and experts in their understanding of cities
Sustainable Urban Development
Creating the Future: Urban Design, Temporal Structures, Visions, Fantasies

Energy and Mobility as key factors for sustainability and Quality of Life
(R)evolutionary reshaping urban structures
