

CALL FOR PAPERS

ICIARP 2019
Nov 12-13, 2019
Venice, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIARP 2019 : International Conference on Industrial Applications of Renewable Plastics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Industrial Applications of Renewable Plastics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Industrial applications of
renewable plastics

Polymers: the industrial and
economic reality compared to
traditional materials

Thermoplastics, thermoplastic
elastomer, thermosets, composites,
and hybrids

Genesis of renewable plastics and
integration in the plastics stream

Development of bioplastics from
renewable sources

Renewable and oil-sourced plastics

Recycling of renewable plastics

Carbon biobased content, testing
and certification

Renewable plastics and ingredients

Renewable plastics consumption and
capacity forecasts

Bioadditives consumption

Wood plastic composite and natural
fiber composite market

Bioplastics applications

Renewable plastic resources

Renewable plastics and recycling
methods

CO₂ emission, greenhouse effect,
and carbon footprint

Renewable plastics derived from
natural polymers

Ready-to-use thermoplastic blends
and derivatives of starch

Polylactic acid

Cellulose derivatives

Various aliphatic polyesters

Liquid wood based on lignin

Self-reinforced composite produced
from cereals

Biobricks
