

CALL FOR PAPERS

ICUMDM 2019
Nov 12-13, 2019
Venice, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICUMDM 2019 : International Conference on Uncertainty Modeling and Decision Making is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Uncertainty Modeling and Decision Making. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Uncertainty Modeling and Decision Making & Artificial intelligence
Autonomous reasoning
Chaos theory
Condition monitoring
Data mining
Data visualization
Decision making
Decision support system
e-science and technology
Evidence theory
Evolutionary programming
Expert systems
Fault diagnosis

Fuzzy logic
Genetic algorithms
Human-machine interface
Hybrid methods
Intelligent information retrieval
Interactive computational models
Internet tools
Knowledge engineering
Machine learning
Neural networks
Noise analysis
Optimization
Pattern recognition
