

CALL FOR PAPERS

ICSSC 2019
Dec 02-03, 2019
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSSC 2019 : International Conference on Signals, Systems and Computers is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Signals, Systems and Computers. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Architecture and Implementation
Array Signal Processing
Biomedical Signal and Image
Processing
Communications Systems
Computer Communications and
Networks
Computer Networks and Security
Control Systems
Data Communication and Computer
Networks

MIMO Communications and Signal
Processing
Mobile Networks and Applications
Networks and Computer Systems
Applications
Networks and Systems
Robotics, Automation and
Instrumentation
Signal Processing and Adaptive
Systems
Signals, Systems, and Computers
Speech, Image and Video Processing
