

CALL FOR PAPERS

ICBBP 2019
Dec 16-17, 2019
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBBP 2019 : International Conference on Biohydrogen and Bioethanol Production is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biohydrogen and Bioethanol Production. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biohydrogen
Biohydrogen production
Biohydrogen, bioelectricity and bioalcohols
Biohydrogen production from enzymatic hydrolysis
Biohydrogen as renewable energy
Microbiology of biohydrogen production
Metabolic engineering of microorganisms for biohydrogen production
Biohydrogen production from organic wastes by dark fermentation

Photofermentative biohydrogen production
Biohydrogen production from algae
Biohydrogen from renewable resources
Biohydrogen production from wastewater
Fermentative biohydrogen production from solid wastes
Thermochemical route for biohydrogen production
Bioreactor and bioprocess design for biohydrogen production
Scale-up and commercial applications of biohydrogen production processes
