

# CALL FOR PAPERS

**ICSSCT 2019**  
**Dec 19-20, 2019**  
**Istanbul, Turkey**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSSCT 2019 : International Conference on Space Science and Communication Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Space Science and Communication Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Atmospheric Sciences  
Space weather  
Upper atmosphere  
Lower atmosphere  
Pollution and climate change  
Astrophysics and Astronomy  
Cosmology  
Studies in the solar system  
Space exploration and astronautics  
Observational astronomy and instrumentation  
Computational and statistical methods  
Remote Sensing

Remote sensing applications  
Environmental sciences  
Geographic information system & cartography  
Satellite and Communication Technology  
Antenna for space communication  
Wireless communications via satellite  
Satellite networks and networking  
Satellite navigation and positioning systems  
Satellite communication and broadcast systems  
Telemedicine and e-health using satellite technology  
Satellite control systems
