

CALL FOR PAPERS

ICBI 2019
Dec 05-06, 2019
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBI 2019 : International Conference on Bacterial Infection is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Bacterial Infection. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Antigen and antibodies assays

Vaccine vectors

Microscopy and culture

Clinical tests

Laboratory tests

Serological tests

Immunological tests

Nucleic acid and non nucleic acid
based identification methods

Radiology

Biomarkers

ELISA test

Chest X ray

Tympanometry

Tympanocentesis

Novel diagnostics

Pathogens and the immune system:
spread, persistence and
transmission

Vaccine development

Response of macrophages, dendritic
cells to bacterial and
mycobacterial infection

Host immune response

Innate immune evasion

Immuno epidemiology

Immune system regulatory control

Innate recognition

Membrane dynamics

Host interactions and system
biology

Immunology of diseases
