

CALL FOR PAPERS

ICSSM 2019
Dec 12-13, 2019
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSSM 2019 : International Conference on Soil and Soil Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Soil and Soil Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Soil in natural ecosystem
Mapping ecosystem services for
policy support and decision making
Impacts of biodiversity loss on
ocean ecosystem services

Ecosystem services in urban areas
Drained residual strength of
cohesive soils
