

CALL FOR PAPERS

ICADMA 2019
Dec 04-05, 2019
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICADMA 2019 : International Conference on Advanced Data Mining and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Data Mining and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Advanced Data Mining Techniques
Scalable data preprocessing and cleaning techniques
Social network mining
Social search and analysis
Collective intelligence in the social Web
Parallel and distributed data mining algorithms
Mining on data streams
Graph and subgraph mining
Methodologies on large-scale data mining
Text, video, multimedia data mining
Web mining
High performance data mining algorithms
Modeling complex social systems

Evolution of social communities and social media
Collaborative filtering in social networks- Data mining visualization
Security and privacy issues
Competitive analysis of mining algorithms
Advanced Data Mining Applications
Data mining systems in finance, sciences, retail, e-commerce
Emerging applications of large-scale data mining
Empirical study of data mining algorithms
Parallel data mining applications
DNA sequencing, bioinformatics, genomics, and biometrics
E-commerce and Web services
Medical informatics
