

# CALL FOR PAPERS

**ICCAS 2019**  
**Dec 04-05, 2019**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCAS 2019 : International Conference on Computer Algorithms and Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computer Algorithms and Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computer algorithms  
Methods for expressing  
Computer algorithms in systems  
engineering  
Numerical analysis  
Comparing complexity of algorithms  
Algorithm classes, verification of  
correctness  
Variety of specific algorithms

Searching, merging, and sorting  
algorithms  
Graph and language problems  
Asymptotic notations, recurrences,  
and algorithm analysis  
Divide and conquer algorithms  
Greedy algorithms  
Dynamic programming algorithms  
Graph algorithms and flow networks
