

CALL FOR PAPERS

ICGRS 2019
Dec 04-05, 2019
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGRS 2019 : International Conference on Geoscience and Remote Sensing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Geoscience and Remote Sensing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Geoscience and Remote Sensing
Data Analysis Methods
Atmosphere
Cryosphere
Oceans
Land
Missions, Sensors and Calibration

Data Management and Education
Monitoring natural disasters
Exposure and hazard mapping
Emergency response
Damage mapping
Food security
Global crop monitoring
