

CALL FOR PAPERS

ICSST 2019
Dec 04-05, 2019
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSST 2019 : International Conference on Sociocybernetics and System Theory is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sociocybernetics and System Theory. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Sociocybernetics

Principles of sociocybernetics
Basic principles of system theory and cybernetics
Application to sociology
Design, methodology and approach
Analysis of social 'forces'
General theoretical framework
Issues and challenges
First order problems
Social entropy theory
Technology and social complexity

Second order problems

System theory
Cybernetics
Social systems
Constructivism
Scientific community
Central components of theory
Specific methods
The paradigm
Standards for solutions of problems
