

CALL FOR PAPERS

ICITSG 2019
Dec 26-27, 2019
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICITSG 2019 : International Conference on Innovative Techniques for Sustainable Growth is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Innovative Techniques for Sustainable Growth. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Environmental science and engineering
Municipal solid waste
Bio-medical waste: environment and public health
Noise pollution and health
Water pollution and public health
Vehicular emissions and pollution control strategies
Opportunities of reuse and recycle of treated sewage
Resource recovery and conservation
Urban air quality and public health
Climate change: issue and strategies
Remote sensing and GIS applications
Use of remote sensing tools for environmental management

Geology/geomorphology
Coastal management
Earth sciences:
Earth and planetary material sciences
Hydrosphere sciences
Dynamic and earth sciences
Isotope chemistry
Isotope hydro metrology
Earth material dynamics
Climate sciences
Energy and climate change
Climatology and hydrology
