

# CALL FOR PAPERS

**ICGSIMGTA 2020**  
**Jan 20-21, 2020**  
**Amsterdam, The Netherlands**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGSIMGTA 2020 : International Conference on Geotechnical Site Investigation Methods, Geophysical Testing and Analysis is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Geotechnical Site Investigation Methods, Geophysical Testing and Analysis. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Geotechnical investigation  
Analysis requirements for  
structures  
Geotechnical investigation and  
testing  
Geotechnical site investigation  
methods  
Test pitting, drilling, soil  
sampling and rock coring  
In situ testing, cone penetration  
testing of soil profiles  
Geophysical testing  
Standard penetration test  
Cone penetration test  
Geotechnical investigation and  
testing program  
Laboratory testing methods for  
soils and rocks

Applications and limitations  
Geotechnical parameter assessment  
Location and depth of borings  
Boring and sampling  
Field record  
Laboratory testing  
Geotechnical report  
Geologic mapping  
Geophysical methods  
Photogrammetry
