

CALL FOR PAPERS

ICOCP 2020
Jan 20-21, 2020
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICOCP 2020 : International Conference on Organophosphorus Chemistry and Phosphine Chalcogenides is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Organophosphorus Chemistry and Phosphine Chalcogenides. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Organophosphorus chemistry
Phosphine chalcogenides
Phosphines
Phosphinic acids
Phosphonic acids
Phosphine boranes
Phosphine complexes
P-heterocycles
Macrocycles

Dendrimers
Catalysts
Homogeneous catalysis
Ionic liquids
Microwave
Monitoration
Theoretical calculations
Biologically active substrates
