

CALL FOR PAPERS

ICSCFC 2020
Jan 16-17, 2020
Bangkok, Thailand

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSCFC 2020 : International Conference on Soil Compaction and Field Compaction is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Soil Compaction and Field Compaction. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Soil compaction
- Compaction methods
- Effects of soil compaction
- Test methods in laboratory
- Compaction and general principles
- Standard proctor test
- Factors affecting compaction
- Modified proctor test
- Structure of compacted clay soil
- Effect of compaction on cohesive soil properties
- Field compaction

- Specifications for field compaction
- Determination of field unit weight of compaction
- Compaction of organic soil and waste materials
- Special compaction techniques
- Causes, concerns and cures
- Soil improvement
- Theory of compaction
- Properties and structure of compacted fine grained soils
- Field compaction equipment and procedures
- Field compaction control and specifications
