

CALL FOR PAPERS

ICACME 2020
Jan 30-31, 2020
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICACME 2020 : International Conference on Automatic Control and Mechatronic Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Automatic Control and Mechatronic Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Automatic Control and Technology
Linear, Nonlinear and Fuzzy Systems
and Control
Predictive Control, Intelligent
Control and Servo Control
Electronics Automation and
Electrical Engineering
Networked Control Systems
Hybrid Systems and Control
Stochastic Systems Control and
Remote Supervisory Control
Automation instrument and device
Guidance, Navigation and Control
Simulation technology of control
system
Electronic, communication and
automatic control technology
Signal Processing Systems for
Control
Power machinery engineering

PLC and Micro-controllers
Control Theory and Application
Cybernetics
Control System Modeling
Control Theory and Methodologies
Process Control and automatic
control theory
Simulation Techniques and
Methodologies
System Engineering Theory and
Practice
Intelligent Optimization Algorithm
and Application
Circuits and Electronics for
Control
Automotive Control Systems and
Autonomous Vehicles
Automation technology application
Signal Processing Systems for
Control
