

CALL FOR PAPERS

ICGPENRR 2020
Jan 30-31, 2020
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGPENRR 2020 : International Conference on Gravitational Potential Energy and Nuclear Reaction Rates is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Gravitational Potential Energy and Nuclear Reaction Rates. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Gravitational potential energy
Quantum mechanical tunneling
Nuclear reaction rates
Stellar nucleosynthesis
Derivation for a uniform sphere

Negative mass component
Non-uniform spheres
Gravitational binding energy and
general relativity
Change in gravitational potential
energy
Absolute gravitational potential
energy
