

# CALL FOR PAPERS

**ICPSESTCAES 2020**  
**Jan 30-31, 2020**  
**Dubai, UAE**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPSESTCAES 2020 : International Conference on Power System Energy Storage Technologies and Compressed-Air Energy Storage is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Power System Energy Storage Technologies and Compressed-Air Energy Storage. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Power system energy storage technologies  
Energy storage technologies in power systems  
Electrical and electrochemical storage system  
Energy storage technologies for wind power applications  
Pumped storage hydropower  
Pumped storage technology  
Compressed-air energy storage

Large-scale batteries  
Superconducting magnetic energy storage  
Hydrogen energy storage  
Energy storage capacitor principles  
Performance characteristics  
Applications
