

# CALL FOR PAPERS

**ICAGSS 2020**  
**Jan 30-31, 2020**  
**Istanbul, Turkey**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAGSS 2020 : International Conference on Advanced Geotechnical Systems and Structures is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Geotechnical Systems and Structures. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Geotechnical systems and structures  
Geotechnical and geotechnical systems engineering  
Structural engineering and structural mechanics  
Hydrology, water resources, and fluid mechanics  
Building systems and civil engineering applications  
Construction engineering and management  
Geotechnical engineering and geotechnical mechanics  
Environmental engineering and landscape design  
Modernization of waterways  
Sustainable development for high-density urban areas  
Sustainable civil engineering  
Environmental engineering for civil systems  
Systems approaches in engineering

Life cycle issues in civil engineering  
Future change and infrastructure monitoring  
Circular economy and civil infrastructure  
Multiple use infrastructure  
Low carbon construction  
Processing and managing field data  
Reliability in civil engineering  
Innovation and entrepreneurship in delivering civil infrastructure  
Sustainable development  
Sustainability in civil engineering  
Civil and structural engineering  
Sustainability in geotechnical engineering  
Recycled and demolished materials for construction
