

# CALL FOR PAPERS

**ICMPA 2020**  
**Jan 30-31, 2020**  
**Istanbul, Turkey**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMPA 2020 : International Conference on Molecular Pharmacology and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Molecular Pharmacology and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Molecular pharmacology  
Advances in molecular pharmacology  
Molecular and cellular  
pharmacology  
Molecular and cellular basis of  
drug actions  
Effects of pharmacological agents  
on gene regulation, chromosome  
structure, protein function and  
modification

Pharmacogenomics and  
pharmacoproteomics  
Clinical pharmacology including  
pharmacokinetics, pharmacodynamics,  
pathways of drug metabolism, and  
drug-drug interactions  
Immunopharmacology including  
immunotherapy, immunotoxicology,  
and immunopathology  
Toxicology including toxicokinetics  
and toxicodynamics  
Radiopharmacology including  
radiopharmaceuticals, development  
and characterization of novel  
imaging agents, and radiation and  
drug interactions
