

CALL FOR PAPERS

ICOMFQASC 2020
Jan 30-31, 2020
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICOMFQASC 2020 : International Conference on Optical Methods for Food Quality Analysis and Safety Control is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Optical Methods for Food Quality Analysis and Safety Control. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Optical instrumentation
developments for food quality and
safety evaluation
Optical techniques for food
production process monitoring
Chemometrics for food quality
analysis and safety control
Multivariate methods for
quantitative analysis for food
authentication

Innovative optical methods for
detection of food contaminants,
ingredients, and additives also
related to health issues
Optical techniques for food shelf
life monitoring
Optical sensing and biosensing for
food quality and safety
