

# CALL FOR PAPERS

**ICAEMEA 2020**  
**Jan 20-21, 2020**  
**London, United Kingdom**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAEMEA 2020 : International Conference on Advanced Earth Materials and Environmental Applications is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Earth Materials and Environmental Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Modification of earth materials  
Development of applications of earth materials in environmental remediation  
Elucidating the role of interactions between earth materials and contaminants  
Earth materials as additives for industrial applications

Instrumental characterization of raw and modified earth materials  
Hybrid materials with earth materials as part of the components  
Integrated use of waste materials for environmental applications
