

CALL FOR PAPERS

ICAOOAM 2020
Jan 20-21, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAOOAM 2020 : International Conference on Acoustical Oceanography, Ocean Acoustics and Modelling is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Acoustical Oceanography, Ocean Acoustics and Modelling. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Acoustical oceanography
History
Equipment used
Theory
Ocean acoustics
Measurements
Sound speed
Absorption
Ambient noise
Reverberation
Bottom loss
Applications
Depth sounding

Marine biology
Underwater sound
Sound waves in water
Speed of sound, density and impedance
Absorption of sound
Sound reflection and scattering
Boundary interactions
Surface
Seabed
Fish population surveys
Classification of fish species and other biota
Rain rate measurement
Wind speed measurement
