

CALL FOR PAPERS

ICCSF 2020
Jan 20-21, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCSF 2020 : International Conference on Coastal Storm Forecasting is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Coastal Storm Forecasting. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Coastal storm forecasting
Coastal storm processes
Hurricanes and typhoons
Predictive modeling

Coupled beach-marsh response
Storm recovery
Recovery modeling
Human-influenced change
