

CALL FOR PAPERS

ICGMEE 2020
Jan 20-21, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGMEE 2020 : International Conference on Green Materials and Environmental Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Green Materials and Environmental Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Materials Engineering

Composite

Micro/Nano materials

Iron and Steel

Ceramics

Metal Alloy Material

Polymer

Optical / Electrical / Magnetic

Materials

Materials Physics and Chemistry

Building Materials

Energy Materials

Environmental-Friendly Materials

Biological Material

Chemical Materials

Thin Films

Seismic materials

Smart Materials and Intelligent

Systems

Hydrogen and Fuel Cells

Environmental Engineering

Air Pollution Monitor

Climate Change and Global Warming

Control of Groundwater Pollution

Water Quality Monitoring

Sewage Treatment and Utilization

Remote Sensing and Environment
