

CALL FOR PAPERS

ICOWECT 2020
Jan 20-21, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICOWECT 2020 : International Conference on Ocean Wave Energy Conversion Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Ocean Wave Energy Conversion Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Resource assessment
New and advanced numerical models
Physical model tests
PTO and control systems
Mooring systems
Array modeling and simulation

Operation and maintenance
Integration of wave energy systems
in multi-use platforms
Wave energy resources
Mooring and anchoring system
Wave-to-wire models
Numerical models
