

# CALL FOR PAPERS

**ICSCC 2020**  
**Jan 20-21, 2020**  
**London, United Kingdom**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSCC 2020 : International Conference on Systems, Control and Communications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Systems, Control and Communications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Information-based control systems  
Distributed and cooperative control systems  
Networked control systems (NCS)  
Wired and wireless networks  
Network control  
(admission/flow/congestion control, etc.)  
Network scheduling and bandwidth allocation

Informatics in control and communication  
Cyber-physical systems (CPSs)  
Sensor and actuator networks  
Multi-agent systems  
Case studies and applications
