

CALL FOR PAPERS

ICSLCCR 2020
Jan 20-21, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSLCCR 2020 : International Conference on Sea Level Change and Coastal Regions is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sea Level Change and Coastal Regions. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Sea level change
Sea level rise
Mechanism
Past changes in sea level
Projections
21st century
After 2100
Models
Global climate
Climate change
Human populations
Coastal and island regions and
natural environments
Contribution

Antarctica
East Antarctic ice sheet (EAIS)
West Antarctic ice sheet (WAIS)
Glaciers
Greenland
Subsidence and effective sea level
rise
Effects
Island nations
Cities
Habitats
Extreme sea level rise events
Sea level measurement
Satellites
