

CALL FOR PAPERS

ICBCSB 2020
Jan 30-31, 2020
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBCSB 2020 : International Conference on Bioinformatics and Computational Systems Biology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Bioinformatics and Computational Systems Biology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Bioinformatics, Computational and
Systems Biology
Biological Morphology
Biomedical image processing
Biomedical Imaging and Image
Processing
Biomedical Instrumentation and
Biosensors
Biomedical Signal Processing
Biomedicine, epidemiology, &
agriculture
Bio-ontology and data mining
Biophysics and Biomechanics
Biosignal Processing and
Understanding
Brain and Neural Engineering
Cardiovascular System Engineering
Clinical Engineering

Comparative Genomics
Complexity
Computational Biology and
Bioinformatics
Computational genetics & genomics
Computational nanoscience and
nanotechnology
Computational Systems Biology
Computer Networks in Biology
Computer-aided drug design
Design and synthesis of biological
systems
Developmental Biology
Diagnosis
Drug Discovery
Dynamical Systems
