

CALL FOR PAPERS

ICMBE 2020
Jan 30-31, 2020
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMBE 2020 : International Conference on Marine Bioprocessing and Enzymes is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Marine Bioprocessing and Enzymes. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Marine bioprocessing
Marine bioprocess engineering
Marine enzymes biotechnology
Marine bioproducts development
Marine biodiscovery, bioproducts and bioprocessing
Sustainable utilization of marine resources
Bioactive compounds from marine processing byproducts
The discovery and development of marine compounds

Bioprocessing data for the production of marine enzymes
Molecular plant cell-based bioprocessing
Integrated bioprocessing and dynamic process optimisation
Marine bioproducts engineering.
Marine microbial enzymes
Marine pharmacognosy
Marine glycobiology
Marine biomaterials
