

# CALL FOR PAPERS

**ICPMCF 2020**  
**Jan 30-31, 2020**  
**New York, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPMCF 2020 : International Conference on Powder Metallurgy and Ceramic Forming is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Powder Metallurgy and Ceramic Forming. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Materials behavior  
Powder metallurgy and ceramic forming  
Non ferrous metal material  
Iron and steel  
High strength alloys  
Materials processing and handling  
Composite materials

Materials forming  
Nanomaterials and nanomanufacturing  
Semiconductor materials manufacturing  
Advanced ceramics: synthesis, properties, and applications  
Advanced materials for solar energy conversion  
Advances in surface science and engineering
