

# CALL FOR PAPERS

**ICSB 2020**  
**Jan 30-31, 2020**  
**New York, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSB 2020 : International Conference on Structural Biotechnology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Structural Biotechnology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Structural biotechnology  
Biological structure and function  
Alternative biological drugs  
Particular surface-exposed proteins  
Membrane transporters  
Channels and enzymes  
Pathogenic processes  
Synthetic biology and applied biology

Microbiology and molecular biology  
Biomolecular engineering  
Biocatalysis and biotransformation, and metabolic engineering  
Bioseparation, bioprocess control and system engineering  
Nanobiotechnology, biosensor and bioelectronics, cell culture engineering  
Environmental biotechnology  
Food biotechnology
