

CALL FOR PAPERS

ICWCAP 2020
Jan 30-31, 2020
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWCAP 2020 : International Conference on Wireless Communications, Antennas and Propagation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wireless Communications, Antennas and Propagation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Active antennas

Antennas and arrays for security systems

Channel modeling

Channel sounding techniques for MIMO systems

Cognitive radio

Communication satellite antennas

DOA estimation

EMC in communication systems

Emergency communication technologies

Indoor and urban propagation

Low-profile wideband antennas

MIMO systems

Mobile networks

Multi-band and UWB antennas

OFDM and multi-carrier systems

Propagation through forested areas

Radio astronomy (including SKA)

RFID technologies

Signal processing antennas and arrays

Small mobile device antennas

Smart antennas and arrays

Space-time coding

Vehicular antennas

Wireless mesh networks

Wireless security

Wireless sensor networks
