

# CALL FOR PAPERS

**ICAMS 2020**  
**Jan 23-24, 2020**  
**Paris, France**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAMS 2020 : International Conference on Aerial Mapping and Surveying is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Aerial Mapping and Surveying. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Aerial survey  
Advances in aerial surveys  
Aerial survey methods and techniques  
Aerial survey and analysis of images  
Aerial surveying and digital mapping  
Aerial photography  
Aerial photography software, experience and measurement results

Interpretation of images for various applications  
Unmanned aerial vehicles and Aerial surveys  
Aeroplanes, helicopters, UAVs, balloons or other aerial methods  
Applications of LiDAR in Aerial surveys  
Remote sensing and applications in aerial surveys  
Aeromagnetic surveys and gravity  
Aerophotogrammetry
