

CALL FOR PAPERS

ICATA 2020
Jan 23-24, 2020
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICATA 2020 : International Conference on Aeroptic Technology in Agriculture is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Aeroptic Technology in Agriculture. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Aeroponics

Aeroponic technology in agriculture

Aeroponic systems and methods

Benefits and drawbacks of aeroponics

Disease-free cultivation

Water and nutrient hydro-atomization

Advanced materials

Nutrient uptake

Low-pressure units

High-pressure devices

Aeroponic propagation

Air-rooted transplants

Aeroponically grown food

Aeroponics and space plants

NASA inflatable aeroponics

Contemporary aeroponics

Aeroponic bio-pharming

Technical and economic analysis of aeroponics
