

CALL FOR PAPERS

ICCCIS 2020
Jan 23-24, 2020
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCCIS 2020 : International Conference on Coding, Cryptology and Information Security is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Coding, Cryptology and Information Security. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Access control	Intrusion Detection and Prevention
Ad Hoc Network Security	Mobile Security
Authentication and authorization	Network security
Cloud security	Privacy
Coding theory	Security and Privacy
Cryptography	Security Protocols
Cryptosystems based on codes	Spread spectrum
Identification, Authentication and	Steganography
Non-repudiation	
Information Hiding
