

CALL FOR PAPERS

ICCITE 2020
Jan 23-24, 2020
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCITE 2020 : International Conference on Communication and Information Technology and Engineering is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Communication and Information Technology and Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

3G & 4G Mobile Communication Services
Agents and Multi-Agents systems for ICT Integrated Circuits for Communications
Antennas & Propagation
Artificial Intelligence and Decision Support Systems
Bioinformatics and Scientific Computing
Broadband & Intelligent networks
Business Information Systems
Case Studies on Data Management, Monitoring and Analysis
Communication Systems and Networks
Complex Systems: Modeling and Simulation
Computational Intelligence Applications
Computer Vision & Pattern Recognition
Data Base Management

Data Exchange issues in Supply Chain
Data Life Cycle in Products and Processes
Data Mining and Data Fusion
Data Models for Production Systems and Services
Data Warehousing, Ontologies and Databases
Distributed information systems
Distributed Sensor Networks
E-Health & Biomedical Applications
E-Learning, e-Commerce, e-Business and e-Governance
Emerging Technologies & Applications
Evolutionary Computation & Genetic Algorithms
Future Trends in ICT & Policy Development
Fuzzy, ANN & Expert Approaches
