

CALL FOR PAPERS

ICCWNC 2020
Jan 23-24, 2020
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCWNC 2020 : International Conference on Cognitive Wireless Networks and Communications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cognitive Wireless Networks and Communications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Wireless Communications	Multiple Access Techniques
Space-Time, MIMO and Adaptive Antennas	Optical Communications
OFDM, CDMA and Spread Spectrum Modulation, Coding and Diversity	Network Technologies
Signal Processing for Wireless Communications	Wireless & Mobile Networking
B3G/4G Systems, WiMAX, WLAN and WPAN	Wireless Sensor Networks
Channel Model and Characterization	Cognitive Radio Networks
Multi-Hop and Cooperative Communications	Ad Hoc, Sensor and Mesh Networking
Interference Cancellation and MUD	Next-Generation Networking and Internet
Radio Resource Management and Allocation	Wireless Network Security and Privacy
Cognitive Radio and Software Defined Radio	Networking and Information Security
Satellite & Space Communications	Network Protocol and Congestion Control
Multimedia Communications	QoS, Reliability & Performance Modeling
