

CALL FOR PAPERS

ICWR 2020
Jan 23-24, 2020
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWR 2020 : International Conference on Wheat Research is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wheat Research. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Wheat studies
Wheat science and technology
Wheat plant and crop
Wheat evolution, domestication, and improvement
Systems-based wheat management strategies
Global wheat production and diseases
Nitrogen management for diverse environments
Grain yield improvement in water-limited environments

Wheat breeding: procedures and strategies
Genome organization and comparative genomics
Wheat industry and advanced technologies
Wheat classification and trade
Biochemical and molecular basis of wheat quality
Wheat and modified wheat products
Wheat marketing system and price discovery
